SWISS JERSEY

No of female cows (last 10 years)

Date:	Members of Swiss Jersey	Total (including non Members)
8.2015	3'456	
8.2016	3'516	
8.2017	3'606	4'773
8.2018	3'737	5'044
11.2019	3'805	5'152
11.2020	3'751	5'232
11.2021	3'731	5'219
11.2022	3'580	5'108
11.2023	3'718	5'358
11.2024	3'620	5'264
11.2025	**3'559**	**5'443**

Jersey – Milk Production Statistics 2025

Jersey	Kalenderjahr		Veränderung
	2025	2024	
Number of completed lactation records	**4’773**	4’887	-114
Number of standard lactations	**3’738**	3’797	-59
Ø standard lactation – all cows:			
Milk yield (kg)	**5’865**	5’889	-24
Fat (kg)	**299**	301	-2
Fat (%)	**5.10**	5.11	-0.01
Protein (kg)	**227**	226	+1
Protein (%)	**3.88**	3.84	+0.04
Lactation persistency (LP)	**68**	68	0
Persistency (%)	**84**	82	+2
Service period (days)	**130**	127	+3
Somatic cell count (SCC)	**104**	107	-3
Ø milk yield (kg) – 4th and subsequent lactations, valley region	**6’417**	6’398	+19

Developement of Standardlactations from 2013 until 2025 *(305 days)*

Year	Nr of Standartlatktations	Milk kg	Fat kg	Fat %	Protein kg	Protein %
2013/2014	2'795	**5'466**	289	5.3	209	3.84
2014/2015	2'970	**5'641**	296	5.26	218	3.87
2015/2016	3'080	**5'624**	294	5.23	216	3.84
2016/2017	3'166	**5'718**	301	5.26	220	3.85
2017/2018	3'203	**5'765**	302	5.24	223	3.86
2019	3'406	**5'925**	305	5.15	228	3.85
2020	3'558	**6'058**	311	5.13	233	3.84
2021	3'683	**6'083**	315	5.18	235	3.87
2022	3'517	**5'959**	307	5.15	231	3.87
2023	3'509	**5'946**	305	5.13	229	3.86
2024	3'797	**5'889**	301	5.11	226	3.84
2025	**3'738**	**5'865**	**299**	**5.10**	**227**	**3.88**

Insemination Facts

Inseminations from 01.01.2025-31.12.2025

9’933 Heifers and Cows

- 38.93 % with a Jersey Bull, 65% of those were sexed
- 45.13 % Beef
- 4% Crossbreed inseminations (Holstein or Brown Swiss)

What is in Focus

Projects

- Total breeding value came out in April 2026 (ICAR Standards)

- Looking forward to genomic testing with more data (single step)

- Selection of a new bull

Swiss Jersey Queen – Award Requirements

The Swiss Jersey Queen award recognises cows that combine high milk production, excellent milk quality, udder health and outstanding conformation.

- **Longevity:** At least 4 completed lactations
- **Milk production:** Minimum average of 6,000 kg per lactation
- **Fat content:** Minimum average of 5.50%
- **Protein content:** Minimum average of 4.00%
- **Somatic cell count:** Maximum average of 80,000 cells/ml
- **Conformation classification:**
  - Minimum 85 points in the 2nd lactation
  - Minimum 88 points from the 3rd lactation

In 2026, seven cows received the Swiss Jersey Queen award.

Breeding Successes in 2025

1 x 100`000kg Milk
6 x 80`000 kg Milk
43 x 60`000 kg Milk

Lookout Joel Lucky Lala – Grand Champion and Senior Udder Champion at the Swiss Jersey National Show 2026, owned by Three-S, Salzgeber Brothers, Pany, Switzerland.
